PROFESSIONAL SUMMARY

Computer science student and software engineer experienced in frontend development, game programming, and UI/UX design. Skilled in React, JavaScript, C#, Unity, and interactive 3D development, with experience creating intuitive interfaces, gameplay systems, and real-time visualizations. Passionate about combining technical problem-solving with creative design to build engaging digital experiences.

EDUCATION

UNIVERSITY OF SOUTHERN CALIFORNIA – Los Angeles, CA Expected May 2028

Bachelor of Science in *Computer Science Games*

SKILLS: C++, C#, JavaScript, HTML, CSS | Unity, Unreal Engine, Github, Perforce | Adobe Software | Bilingual (English & Spanish)

AWARDS: HSF Scholar, HITEC Scholar, QuestBridge Scholar

RELEVANT COURSEWORK: Data Structures & Object-Oriented Design, Mobile Game Development, Video Game Programming

PROFESSIONAL EXPERIENCE

Booz Allen Hamilton - El Segundo, CA Jun 2026 - Aug 2026

Software Engineering Intern

- Led frontend and UX development across 80 React components and pages for a mission-planning application.
- Built an interactive React Three Fiber globe visualizing Earth, satellite orbits, ground assets, and coverage areas.
- Created mission tools featuring timeline playback, calendar scheduling, pipeline views, and constellation controls.
- Designed the landing page, 3D intro sequence, logo, and visual identity to establish cohesive product branding.
- Integrated REST APIs for mission-plan storage, location data, database routing, and TLE reloading

USC Games Career Center - Los Angeles, CA Sep 2026 - Present

Student Assistant

- Support career fairs, workshops, and industry events connecting USC Games students with studios, recruiters, and alumni.
- Coordinate events, student communications, and career resources promoting opportunities within the games industry.

Lvl∞nity - Los Angeles, CA Jan 2026 - Present

Backend & Full-stack Developer

- Co-founded and developed a scalable, game-inspired social platform for collaborative project sharing.
- Architected database schemas, REST APIs, authentication flows, and core backend application logic.
- Built secure full-stack features connecting responsive frontend interfaces with backend services.

INVOLVEMENTS

Society of Hispanic Professional Engineers (SHPE) Aug 2024 - Present

Co-VP of Marketing

- Co-lead chapter marketing, overseeing social media, promotional campaigns, and event communications.
- Design branded flyers, graphics, and digital content that strengthen SHPE's identity and student engagement.
- Manage content planning and social media schedules to promote professional, academic, and social events.
- Oversee committee marketing efforts to ensure consistent branding, clear messaging, and timely promotion.

Wax Out! Sept 2025 - May 2026

Gameplay Engineer & UI/UX Designer

- Developed gameplay systems, UI components, and interactive features in Unity using C#.
- Designed intuitive player flows and interfaces with designers, aligning usability with gameplay goals.

Open Alpha Aug 2024 - Dec 2025

Game Design Lead

- Co-designed and published a game on Steam and itch.io, leading character development, dialogue, and world-building.
- Collaborated with programmers to implement narrative content and procedural systems in Unity.
